

Beat the Heat

When the hot weather hits you have to make sure your landscaping survives the heat! Here are some tips to keep your property looking healthy:

- Set your irrigation system to run early in the morning, before the sun comes up. This can help prevent fungus.
- Try not to mow on extremely hot days, if you have to, raise the blades on your mower
- Do not trim shrubs on extremely hot days, it can cause damage to the plant.

Monthly Customer Checklist

- ✓ If you maintain your lawn yourself, make sure to **slightly raise the blade on your mower** to avoid burning your lawn out on hot days
- ✓ Make sure the blades on your mower are sharp. **Sharp blades are critical!**
- ✓ Be sure to **check out our Facebook page** for weekly updates!
- ✓ **Enjoy your landscaping and the summer!**

Does your property need a Mid-Summer Touch-up?

Does your property need to be spruced up? We will be more than happy to touch up your mulching, re-edge beds, lightly trim your shrubs, etc. Putting a thin layer of new mulch into plant beds makes it look as good as new! Re-edging your beds can give your mulch beds a more defined look and make the flowers and shrubbery stand out. Lightly re-shaping shrubbery will add a manicured look to your property. We can easily provide you with these services to give your property a midseason face lift before any big event! Call to set up an appointment today, 856-783-8833.
