June 2018, Issue 4

qualityland.net

## Services provided this month:

- **Weekly or bi-weekly mowing service**, depending on your preference
- **Shrub trimming**, this will be the first of the two recommended trimming services for the season
- **Step 3 of our Lawn Care program** which provides fertilizer and crabgrass pre-emergent to your lawn

Other optional services that you may not know about:

- **Irrigation system check**, during this service we can adjust sprinkler heads and running times as needed as well as making sure the system is running properly
- **Insect control** to your shrubs and trees, this is a service that is offered on your grounds maintenance proposal. It help eliminate the damage that certain insects can do to your tree or shrubs this time of year

If you have any questions or concerns regarding any of these services please do not hesitate to contact the office.

Please note, these services will not be provided unless it was checked off on your grounds maintenance proposal or you have otherwise requested it!

## June Checklist:

- ✓ I am prepared to change my run times on my irrigation system if there is a heat wave.
- ✓ I have inspected my lawn for any discoloration or concerns in between my Lawn Care steps and have reported them to the office
- ✓ I have called the office to set-up an appointment with a site supervisor to walk around my property to discuss any of my questions or concerns.

## Summer Flowers:

We started planting summer flowers after May 15<sup>th</sup>. This date is considered the last chance of frost for the spring. If you signed up for flowers and have not received them yet, we will be coming out soon to install them. Once they are installed, please adjust your irrigation system to make sure the flowers get the proper amount of watering.

Please feel free to post pictures of your flower designs on our Facebook page. We are proud of the work we do and we want you to be too!
