Issue 1, March 2019

Happy New Year! We hope that 2019 has been a great year for you so far. We are excited to get the spring started. Spring officially starts on March 20th. Better you know it we will be starting Step 1 of the Lawn Care Program, spring clean-ups, and mulching soon. If you have a specific date you would like your clean-up and/or mulching done, please contact Kerri at 856-783-8833 x 11.

Step 1 of the Lawn Care Program as well as spring clean-ups and mulching services are the **first steps in having your property look well maintained throughout the spring, summer and fall.** Step 1 helps prevent crabgrass in your lawn. Without this preventative step, your lawn will most likely have a lot of crabgrass throughout it within a couple of weeks. Without receiving a spring clean-up and a mulching service your yard will look less than desirable. Also, you are more likely to have many weeds throughout the beds.

Customer Checklist:

- Send back your 2019 grounds maintenance proposal
- Schedule your irrigation system start-up
- Call to set-up an estimate for any new landscaping you would like to have done
- Send in your e-mail address to receive information and discounts throughout the season
- "Like" us on Facebook
- Contact us with any questions or concerns you may have before the season starts
- Enjoy spring!

Did you know?

Quality Landscaping, Inc has a supply center at our headquarters! **We can provide with you with DIY supplies for mulching, stone, and sand.** We supply many different varieties. We realize that many homeowners like to take advantage of the spring season by doing their spring clean-ups, mulching, etc. However, let us still help you! Stop by and one of our experienced yard staff can help you decide what type and quantity will work best for you. We are open 6 days a week, weather permitting, during the spring!
