

## May your lawn be weed free!

Dandelions and other broadleaf weeds may appear in your lawn this time of year. However, Step 2 of our Lawn Care Program will help treat this problem. This step will help kill anything growing in your lawn EXCEPT your grass! You should be receiving this step within the next couple of weeks. If you should have any questions or concerns about the Step 2 treatment or broadleaf weeds, please call Kerri at 856-783-8833 x 11.

## April showers bring May flowers

We will be installing flowers this month for those of you who checked off summer annuals on your grounds maintenance contract. Please note that the flowers will be installed AFTER May 15<sup>th</sup>. We try to avoid any chance of a frost, which would harm the flowers. Our summer annuals are ordered based on the amount requested. Therefore, if you have not already requested to have annuals installed and would like to receive them, please call our office immediately. If you would like to choose the kind or color of flowers, please call our office and we can discuss your options.

## Monthly Customer Checklist

- ✓ If you are interested in having spring annuals put in, but did not schedule the service please call our office.
- ✓ Check out the Quality Landscaping Facebook page
- ✓ Pick-up one of our 2017 Yard Department price books for new prices on DIY supplies
- ✓ When the weather warms up, make a note to adjust your irrigation system accordingly.

Our office is open on Saturday, weather permitting, for all of your DIY supply needs!
